

2005 for Business Excellence

Computer Trends Is A Company You Can Trust

And Chris Steele, owner and founder, says you can count on his company to always be there for you

Computer Trends not only assures you we will provide great products and service, but we'll be around when you need us in the future, he says.

Since 1991, Computer Trends has been a pioneer in affordable computer solutions.

Weathering the storm of boom and bust, Steele says Computer Trends employs a customer service policy of total customer satisfaction.

His staff work hard to ensure each customer has a great shopping experience - from beginning to end.

Many of our customers are recommended by family or friends who have purchased from us in the past, he says.

We have built our reputation on integrity, great product selection, affordable pricing and outstanding service, and it's that reputation that brings customers into our stores and keeps them coming back.

Known as the industry leader in the trend-setting approaches of customer service, low prices and after-purchase support, Computer Trends has grown to encompass 12 retail locations across Western Canada in three provinces.

Buying a laptop or desktop can be confusing and we want to make it easy - we want you to have the best possible experience during and after your purchase, says Steele.

A satisfied customer is our best business strategy.

Chris Steele, owner and founder,
Computer Trends Canada

In addition to its retail operations, Computer Trends has expanded into the wholesale and export market, making its products available in more than 35 countries worldwide.

We are persistent in finding ways to continually grow and provide enhancement to every aspect of our business, says Steele.

Carrying famous brands such as HP, Compaq, Toshiba, Sony, IBM and many more, Computer Trends will not only provide you with the latest in the new and refurbished laptop and desktop products, backed by extended warranty options, it also offers an A+ Certified Service Centre at each location.

Our technicians are knowledgeable and experienced and ready to provide top-level customer support, says Steele.

We're always here when you need us, seven days a week.

Computer Trends makes your purchase options easy with on-the-spot financing and 12 months of no interest and no payments
